

First-time Home Buyers Tax Credit Flier

The Housing and Economic Recovery Act of 2008 authorizes a \$7,500 tax credit for qualified first-time home buyers purchasing homes on or after April 9, 2008 and before July 1, 2009. Plus your state may also have additional programs to help first-time buyers as well. Inform your potential customers about the credit to see if they qualify.

This new flier provides the snapshot of the timeline, who is qualified and how to get the credit. It also directs people to the federal and your state's web sites to learn about the details of each program.

The flier is customized with your company information.

Offer the help and assistance that could take that dream of homeownership and make it a reality. Order it now!
